FOR IMMEDIATE RELEASE

GARDENSCAPE PROFESSIONALS ASSOCIATION ANNOUNCES 2009 GARDENSCAPE THEME

The Association and GardenScape Committees proudly announce the theme for GardenScape 2009: *Gardens of Eden - an Oasis for the Soul*. The theme was specifically chosen for its wide range of possible interpretations and appeal. The concept evokes notions of "Eden" as unspoiled or natural; a soothing, meditative or tranquil garden escape whereby a weary soul may seek intimacy and rejuvenation. The Gardens of Eden conjure up impressions of wild, untamed and primitive settings in which GardenScape visitors can bask in the exotic scents and sights of the flora. Gardening is an essential element of healthy living and visitors may experience the added value of landscaping and how it impacts personal space. The landscaping exhibits and ideas are certain to fulfill everyone's dreams of paradise. Visitors can take away ideas of how to modify their garden to achieve intimacy, serenity, or their own notion of Eden. GardenScape 2009, *Gardens of Eden - an Oasis for the Soul* celebrates the rebirth of springtime and the revitalization of the spirit.
